SUMMARY

Information Systems graduate from Universitas Andalas with experience in data analysis, operational administration, and business reporting. Skilled in Microsoft Excel, SQL, Power BI, and business intelligence with a strong ability to transform data into actionable insights. Experienced in coordinating with cross-functional teams, managing operational documentation, and supporting business processes. Passionate about Business Analysis, Marketing Operations, Business Development, and data-driven decision making.

EDUCATION

Andalas University

Aug 2019 – Jun 2025

Padang, West Sumatera

Bachelor's degree, Information System (GPA 3.59/4.00)

EXPERIENCES

CV.Dansa Permata Indonesia - Padang

Jan 2025 – Dec 2025

Warehouse Admin

- Managed and validated inventory data for 3 brands by cross-checking system records with actual warehouse conditions, ensuring high data accuracy in operations
- Identified and resolved stock discrepancies through regular stock opname, reducing data inconsistencies and improving reporting reliability
- Generated structured inventory reports (daily, weekly, monthly) to support operational monitoring and decision-making
- Collaborated with purchasing and sales teams to maintain accurate stock flow and prevent operational disruptions
- Ensured organized documentation and warehouse layout, improving efficiency in data tracking and goods retrieval

Kantor Wilayah Kementerian Agama Sumatra Barat - Padang

Oct 2022 – Nov 2022

Intern Front-End Developer

- Developed and implemented front-end components for a Hajj and Umrah Monitoring Information System, improving user accessibility and interface usability
- Designed user-centric interfaces that streamlined user interaction and enhanced overall system experience
- Collaborated with the back-end team to ensure seamless integration and accurate data representation within the system
- Actively contributed to project coordination in a 4-member team, ensuring timely delivery of the system

ORGANIZATIONAL EXPERIENCE

Information Systems Student Association

May 2022 – Dec 2022

Head of Human Resources Division

- Led and managed the division in designing and executing student development initiatives to strengthen members’ competencies and engagement
- Oversaw training, mentoring, and cadre development programs, ensuring structured implementation and effective outcomes
- Mentored and evaluated team members to improve performance, productivity, and overall team effectiveness
- Collaborated with other divisions to drive organizational objectives and ensure seamless program execution

Student Executive Board – Faculty of Information Technology

Sep 2021 – Oct 2021

Head of the Discipline Commission Division of the Faculty of Information Technology

- Led the discipline division to enforce organizational regulations and promote a culture of accountability and professionalism
- Supervised member behavior and provided clear guidance on policies and ethical standards
- Collaborated with cross-functional teams to ensure smooth, well-organized, and compliant execution of events and activities
- Analyzed and reported disciplinary cases to the executive board, contributing to improved governance and decision-making

ACHIEVEMENT

- TOEFL Prediction Test (2025) – Score 557

PROJECT

- Business Intelligence Dashboard for Student Graduation Data (2024) Developed an interactive dashboard using Power BI to analyze student graduation data and provide insights for decision-making in selecting higher education pathways (2024) (Power BI, Pentaho, Exel, MySQL)
- Hajj and Umrah Monitoring Information System (2022) Contributed as a Front-End Developer in building a web-based monitoring system, focusing on user interface design and system usability
