- Produced television news content through an audiovisual journalism project.
- Prepared interview questions and assisted reporters during news coverage.
- Wrote scripts for news anchors and developed broadcast news features.
- Gained hands-on experience in television news production and broadcast program management.

# JURNALISME DATA

This is a course in semester 4 whose output is a data-based feature story. In this course I learned to process the data collected, to be processed into data in the news.

- Collecting data from various sources for feature writing
- Interviewing sources to confirm the data obtained
- Writing feature articles from coverage data that has been collected from various sources.

Data diolah dari BPBD (Dokumen Rencana Kontinjensi Bencana Gempa Bumi Akibat Sesar Lembang; 2019).

## Bandung Raya Terancam Gempa 6.8 M: Apakah Infrastruktur Bangunan Sudah Sesuai Standar?

Kelompok 13\_Jurnalisme Data - Follow

6 min read · Jun 18 2024

Sesar Lembang berpotensi menyebabkan gempa bumi dengan kekuatan 6.8 Magnitude (M) dengan dampak risiko kerusakan besar bagi infrastruktur dan keamanan 8 juta jiwa di wilayah Bandung Raya. Penelitian milik Arif Nurrohmah mengungkap bahwa sebanyak 17.000 atau 70% berdasarkan data BPBD bangunan telah berdiri di jalur rawan Sesar Lembang. Hal ini menjadi sorotan penting bahwasanya perluasan mitigasi ancaman Sesar Lembang harus lebih disorot oleh berbagai elemen.

### Garis Sesar Lembang

Gambar: Garis Sesar Lembang (Sumber: BBNK2019)

BMKG telah memberikan prediksi terburuk apabila Sesar Lembang ini bergerak, yaitu gempa bumi dengan kekuatan maksimum magnitudo 6.8. Namun, dengan segala pemberitaan dan prediksi tersebut, pemerintah sepertinya belum sepenuhnya serius dalam menanggapi ancaman itu. Faktanya, masih banyak pembangunan lahan di sepanjang daerah rawan garis sesar dan kurangnya penyuluhan mitigasi bencana dari pihak yang berwenang.

Sebuah penelitian pada tahun 2020 yang diterbitkan oleh Jurnal Geodesi dan Geomatika milik Arif Nurrohmah menunjukkan bahwa jumlah sebaran lahan yang terbangun mencapai 17.645 unit. Komposisi sebaran lahan tersebut secara administratif yaitu di Kota Cimahi berjumlah 23 unit, Kabupaten Bandung 50 unit, dan Kabupaten Bandung Barat sebanyak 17.572 unit.

### Bandung Raya Terancam oleh Pergerakan Sesar Lembang

Sesar Lembang merupakan sesar aktif yang berada di Bandung, Jawa Barat.

# PERIKLANAN

This is a course in college where the output of the assignment is an advertisement for a product. In this course I learned to develop creative thinking skills to prepare ideas for making advertisements, so that the message we create is conveyed to the audience.

- Writing scripts for the artists.
- Researching issues so that the message can be conveyed well.
- Successfully made an advertisement with the topic “Dangers of Diabetes” and received positive feedback from lecturers and friends.
