ABOUT ME

Stakeholder engagement and social performance professional with five years of experience, including three years in Pertamina's upstream and downstream operations across Sumatra, Java, and Central Sulawesi. I help energy companies protect their social licence to operate by turning community concerns into well-governed, measurable programmes.

At PT Pertamina EP Donggi Matindok Field in Banggai (2024-2026), I worked on stakeholder mapping, social impact and risk assessments, public consultations, grievance handling, and community investment programmes aligned with ESG objectives and SKK Migas requirements. The Field was awarded Best CID Partner (Silver) at the CID Upstream Award 2025, and I represented it at the Asia Responsible Enterprise Award (AREA) 2025 in Bangkok, where the Kokolomboi Lestari community empowerment programme received international recognition.

Earlier, I coordinated ESG and CSR programmes at Pertamina Patra Niaga's Integrated Terminal Jakarta, conducted social baseline studies at Pertamina Hulu Rokan's Prabumulih Field, and supported protocol and delegate engagement for the ASEAN Economic Ministers' Meeting and G20 Indonesia Summit 2022 at the Ministry of Trade. Combining field-level community work with government and international engagement shapes how I approach stakeholders.

Core strengths: stakeholder mapping, social impact assessment, grievance management, public consultation, government liaison, and ESG and sustainability reporting. Bachelor of Social Sciences, Universitas Gadjah Mada. Certified in ISO 26000, Health Impact Assessment. Working languages: Bahasa Indonesia and English.

I am currently open to new opportunities in community development, social performance, ESG, and external relations across energy, mining, and infrastructure in Indonesia and internationally. Feel free to reach out: prasetyoalfano@gmail.com.

WORK EXPERIENCE

PT Pertamina EP Donggi Matindok Field – Banggai, Central Sulawesi, Indonesia

Community development officer

[1 Jun 2024 – 31 May 2026]

Led stakeholder engagement and social performance initiatives supporting upstream oil and gas operations across multiple communities in Central Sulawesi.

1. Developed and implemented community investment programmes aligned with ESG objectives, sustainability commitments, local development priorities, and SKK Migas requirements.
2. Conducted stakeholder mapping, social impact assessments, and social risk analysis to identify community concerns, engagement priorities, and operational risks.
3. Facilitated public consultation processes involving local government authorities, community leaders, indigenous groups, NGOs, and project stakeholders.
4. Managed grievance handling mechanisms and stakeholder communication strategies to strengthen trust, maintain positive community relations, and support the company's social licence to operate.
5. Supported regulatory compliance, social licence to operate, and operational continuity through proactive stakeholder engagement and risk mitigation measures.
6. Monitored programme performance, impact indicators, and sustainability outcomes to ensure accountability and measurable social value creation.
7. Awarded **Best CID Partner – Silver, CID Upstream Award 2025**, representing PT Pertamina EP Donggi Matindok Field, Regional 4 Zona 13, recognising contributions to strategic community involvement and development initiatives.
8. Represented the **PT Pertamina EP Donggi Matindok Field** at the **Asia Responsible Enterprise Award (AREA) 2025 in Bangkok, Thailand**, where the Field received international recognition for the **Kokolomboi Lestari** community empowerment programme.

PT Pertamina Patra Niaga Integrated Terminal Jakarta – Jakarta, Indonesia

Community Development Officer

[1 Oct 2023 – 30 Apr 2024]

1. Coordinated ESG and community investment initiatives supporting strategic fuel distribution operations.
2. Managed stakeholder engagement activities involving government agencies, educational institutions, local communities, NGOs, and implementation partners.
3. Administered programme governance, CSR fund allocation, compliance documentation, and sustainability reporting requirements.
4. Conducted programme evaluations, stakeholder consultations, and impact assessments to support continuous improvement initiatives.
5. Contributed to environmental compliance programmes, sustainability performance monitoring, and corporate responsibility reporting.
6. Supported cross-functional collaboration between operational, environmental, and external stakeholder teams.

 **PT Pertamina Hulu Rokan Regional 1 Zona 4 (Prabumulih Field)** – Prabumulih, Indonesia

Community Development Specialist

[1 May 2023 – 30 Sep 2023]

1. Supported stakeholder engagement and social performance activities for upstream oil and gas operations.
2. Conducted social baseline studies, community assessments, and stakeholder analysis to support sustainability planning and regulatory compliance.
3. Identified emerging social risks, stakeholder concerns, and community expectations through field assessments and engagement activities.
4. Coordinated engagement with government institutions, NGOs, community leaders, and local stakeholders to strengthen project acceptance.
5. Contributed to ESG reporting, sustainability documentation, programme monitoring, and impact evaluation processes.
6. Supported development of community investment and socio-economic development initiatives

 **Ministry of Trade Republic of Indonesia** – Jakarta, Indonesia

Protocol Officer

[1 Mar 2022 – 31 Dec 2022]

1. Coordinated protocol arrangements and stakeholder engagement activities for international forums, including the ASEAN Economic Ministers' Meeting and G20 Indonesia Summit 2022.
2. Managed communication and engagement with diplomatic representatives, government officials, international delegates, and foreign stakeholders.
3. Facilitated cross-cultural collaboration and strategic stakeholder coordination in high-profile international environments.
4. Ensured compliance with diplomatic protocol standards, event governance requirements, and government procedures.
5. Supported successful delivery of international engagements strengthening Indonesia's external relations and global representation.

 **PT Pertamina Fuel Terminal Rewulu** – Yogyakarta, Indonesia

Stakeholder Engagement Research Assistant (Project Based)

[16 Aug 2021 – 25 Sep 2021]

1. Conducted stakeholder mapping and stakeholder analysis supporting fuel terminal operations during the COVID-19 pandemic.
2. Identified stakeholder influence, expectations, concerns, and engagement priorities through structured interviews and surveys.
3. Analysed community feedback and stakeholder perceptions to support social risk identification and mitigation strategies.
4. Developed stakeholder engagement reports supporting operational sustainability, transparency, and relationship management.
5. Contributed to stakeholder communication planning and community relations initiatives.

 **PT Solusi Bangun Indonesia** – Bogor, Indonesia

Social Mapping Assistant Research (Project Based)

[10 Jun 2021 – 12 Aug 2021]

1. Supported social impact assessments and stakeholder mapping activities surrounding cement manufacturing operations.
2. Conducted socio-economic research, stakeholder analysis, and community profiling to identify risks, opportunities, and development priorities.
3. Contributed to sustainability planning, community investment strategies, and ESG-related recommendations.

4. Assisted preparation of analytical reports supporting evidence-based decision-making and stakeholder management.
5. Supported development of community relations and social performance strategies aligned with corporate sustainability objectives.

HOBBIES AND INTERESTS

Seasoned International Traveler & Cross-Cultural Explorer Have travelled across Europe and Asia, including the Netherlands (Amsterdam, The Hague, and Enschede), Germany (Münster), France (Paris and Marseille), Italy (Milan, Rome, and Florence), Thailand (Bangkok), and Singapore. These experiences taught me to navigate diverse cultures, communicate across differences,

and build trust with people from varied backgrounds, skills that directly support my work in stakeholder engagement and external relations.

Snorkelling, Freediving & Water Sports Enthusiast Love snorkelling in Indonesia's coral reefs, from Ternate in North Maluku to Paisu Pok in the Banggai Islands, Central Sulawesi. Also active in freediving, kayaking, and swimming. Passionate about marine biodiversity and coastal community well-being.

Tennis Player Play tennis regularly to stay active and sharp. The sport builds discipline, strategic thinking, and resilience under pressure, qualities I bring to stakeholder engagement and negotiation.
